Memory	2GB
Network	TCP/IP
Season Cards	MIFARE 1k
Case	MS powder Coated
Main Power	220v AC
Consumption	150W
Net Weight	45 Kg

Cashiering Station

The Smart Cashiering is our renewed web-based manual cashier and will replace the Conventional Systems . It actually works almost the same as the regular POS. server and can then be accessed from any device with an internet browser, when on the same network as the server. It is used in a fee per concurrent user license system

Most important functionalities/benefits:

- Web-based, so multiple people can login on different devices at the same time with their own account.
- No extra physical device.
- Tickets can be scanned using an USB-connected wedge barcode scanner.
- A series of different products can be configured/created.
- Discount tickets.
- Tickets can be converted from one contract into another.
- Tickets can be searched.
- Network receipt and ticket printer can be linked
- Fee Display can be connected
- User Friendly UI design
- Various Reporting functionality
 - Total Report
 - Grand Total Report
 - Cashier / Operator/ Supervisor Report
 - Missing tickets
 - Loss of tickets
 - Government Transactions
 - Bleed off
- Shift break or closure
- Audit Trails
